Setup Content Management Store with OCM - Cloud or WebCenter - On Premise.

2 SECURITY AND ARCHIVING

Enable Content Management Document Security and Archiving.

3 IDENTIFY & CONFIGURE OAN

Identify Oracle form that will, **collect, store and retrieve documents** and configure the OAN solutions.

SOLUTION FEATURES

oAppsNET's 25+ years of experience and dedication to Oracle along with our product development is key to our content management solution's continued innovation. Below are some of the most prominent oAppsNET features behind the benefits:

MULTI-CHANNEL PLATFORM

oAppsNET offers a single, collaborative platform that enables document management processes across many departments with your organization. The platform support many document format types. Our single source of truth design allows management teams to streamline their content management processes so businesses can grow without operational restraints.

PREBUILT INTEGRATIONS

oAppsNET's solution includes prebuilt Oracle® EBS & Oracle Content store 7 Azure AI connectors. These prebuilt integrations simplify setting up the content management solution for your organization so you can start in weeks and not months. Business advantages include: global process, simplified implementation, speed to implement, documents are not stored in your ERP, non-ERP user access.

ORACLE CONTENT MANAGEMENT

Oracle's cloud or on-premise content management solution provides organizations with a single system to capture and convert paper and electronic documents and a user-friendly web interface capable of using high-volume, production-level scanners. OCM also centralizes your content all in one place and makes it accessible anywhere.

MULTI-LAYER DOCUMENT SECURITY

Oracle Content Management uses a multilayered approach to protect your files in the cloud. User Name and Password, file encryption, access control, Virus scanning, and passcodes on mobile devices.

ARTIFICIAL INTELLIGENCE

oAppsNET's solution integrates with several AI solutions and their related prebuilt models (i.e., Oracle AI - Document Understanding and Azure AI - Invoices) to simplify the entire process of adding metadata about your content, so it is easily organized and searched.

BUILT INTO THE OAN PLATFORM

This Oracle document management solution conveniently integrates with oAppsNET's OAN platform (i.e., Accounts Payable Invoices, Vendor Documents, DocuSign® Integration, Journal Entries, Oracle Contracts, Oracle Purchase Orders, Human Resources) so your ROI is achieved in a matter of months and not years.
